

Service Philosophy

We believe in the
power
of inspired young
people

Building capacity

The Y has a role in building the capacity of those whose lives we work with.

Developing the whole child

The Y strives for the highest quality education and care, assisting each child to maximise their learning outcomes.

Providing high quality, evidence-informed practice

The Y enables children to identify their own learning interests and needs and supports them as they develop and grow.

Family Resource Centre

At the Family Resource Centre we pride ourselves in being a professional and approachable service. Our experienced staff possess a wealth of knowledge that is shared with each educator to support and guide them in creating a successful career path while operating a quality educational service within their community.

Through mutually respectful and transparent relationships, service staff inspire and challenge educators to adapt and build on their existing principles and knowledge, encouraging reflection on their current practice and to strive for continuous improvement within their learning environments.

We are committed to The Y philosophy, beliefs and visions, which we hope will help our staff, educators, children, families and communities become valued contributors to society.

Honesty. Respect. Responsibility and Caring.
