

# The Y WA School ReadyY Program

**Set your child up for success with the Y WA School ReadyY Program**

**The Y WA is dedicated to ensuring children and young people across Western Australia are given the opportunity to grow and flourish.**

The first five years of life is a period of enormous growth, and positive experiences in these early years can have a lasting impact.

The Y WA has developed the School ReadyY Program - a unique program designed to create strong foundations for learning that will give children in our Early Learning Centres the best chance at success upon entering school and beyond.

This program combines engaging, play-based early learning experiences with intentional teaching of pre-academic skills in three key domains:

- Literacy & Language
- Social & Emotional Wellbeing
- Numeracy - STEM (science, technology, engineering, and mathematics)

Delivery of the program includes professional learning and coaching for Y WA staff as we continue to partner with experts in the field to build the knowledge and skills of our team.

*"The School Ready Program has been such a positive part of our child's experience at the ELC. It's helped build their confidence, independence and readiness for the next step into school. We've noticed real growth in their overall enthusiasm for learning." – Baldivis Parent*

**Please do not hesitate to reach out to your centre director with any questions you may have about the Y WA School ReadyY Program.**
